

David Schulte

WORK EXPERIENCE

Machine Learning Engineer

Meltwater

Berlin, DE

9/2025 – present

- Building ML systems for entity level sentiment classification

Data Scientist

Vaayu

Berlin, DE

9/2022 – 08/2025

- Owned an NLP model that predicts ~1M product taxonomies per day
- Analyzed and predicted the carbon impact of retail shipping behavior

Data Scientist (Working Student)

Jobufo

Berlin, DE

3/2022 – 8/2022

- Developed a sequence labeling model for segmenting job advertisements
- Used unsupervised clustering of webpages to facilitate market research

EDUCATION

Statistics (M.Sc)

Humboldt University of Berlin

Berlin, DE

10/2020 – 3/2024

Mathematics (B.Sc)

University of Cologne

Cologne, DE

10/2014 – 9/2019

Computer Science (Semester abroad)

Waseda University

Tokyo, JP

4/2018 – 8/2018

PUBLICATIONS

Less is More: Parameter-Efficient Selection of Intermediate Tasks for Transfer Learning EMNLP 2024
(Schulte et al., EMNLP 2024)

PROJECTS

hf-dataset-selector

A Python package for efficient selection of datasets for intermediate task transfer learning

word-guesser

Solving a word guessing game by navigating through embeddings in a vector database

Reinforcement Learning for 3-Player Chinese Checkers

Designed and trained an agent to play a multiplayer board game that surpassed human skill-level

SKILLS

Concepts: Machine Learning, NLP, Statistics, Model Deployment, Data Analysis

Technologies: Python, PyTorch, SQL, Docker, Kubernetes, Git, GCP

Languages: English (Fluent), German (Native), Japanese (Intermediate / JLPT N2)
